Jasser Houimli

+216 23 628 074 | houimlijasser9@gmail.com | linkedin.com/in/jasserho1 | jasserhouimli.github.io/me | github.com/jasserhouimli

Education

Institut Supérieur des Arts Multimédia de la Manouba (ISAMM) Manouba, Tunisia
Bachelor's Degree in Computer Science *2024 – 2027*

Relevant Coursework: Big Data, Machine Learning, Databases, Data Structures & Algorithms, Operating Systems, Computer Networks

Projects

Reflow – Visual Data Pipeline Orchestrator | github.com/jasserhouimli/Reflow

- Architected the backend as a Modular Monolith with Vertical Slices in ASP.NET Core, paired with a React Flow UI for pipeline workflows.
- Engineered an asynchronous execution engine that coordinates step dependencies, manages task state transitions, and handles retries.
- Built automated triggers (cron schedules and webhooks) with persistent run history in PostgreSQL, backed by xUnit tests and GitHub Actions CI.

SalarySwarm – Distributed Hadoop & Spark Pipeline | github.com/jasserhouimli/SalarySwarm

- Containerized a multi-node Hadoop (HDFS) and Apache Spark cluster using Docker Compose to simulate a distributed processing environment.
- Developed PySpark batch ETL scripts to clean, transform, and aggregate 250,000+ salary records into structured datasets.
- Built an interactive Streamlit dashboard with Plotly charts to visualize compensation trends across job roles, experience levels, and locations.

SketchTogether – Real-Time Collaborative Whiteboard | github.com/jasserhouimli/sketch-together

- Built a real-time collaborative whiteboard application using ASP.NET Core Minimal APIs, SignalR (WebSockets), and TypeScript.
- Enabled low-latency canvas synchronization for multi-user freehand drawing, sticky notes, active user presence, and shared undo/redo.
- Persisted board state and canvas elements in SQLite via Entity Framework Core, allowing boards to be shared and resumed via unique links.

Competitive Programming & Problem Solving

Algorithmic Problem Solving Ongoing
Codeforces, LeetCode, AtCoder *codeforces.com/profile/JasserCC*

- Solved 200+ algorithmic problems across Codeforces, LeetCode, and AtCoder.
- Achieved **Pupil** rank on Codeforces (Handle: JasserCC) and competed in team-based ICPC contests.

Technical Skills

Languages: Python, C#, C++, SQL, TypeScript, JavaScript
Data & Analytics: Apache Spark (PySpark), Hadoop (HDFS), Pandas, NumPy, Streamlit
Backend & Architecture: ASP.NET Core, Minimal APIs, Modular Monolith, Vertical Slices, EF Core, SignalR, REST
Databases: PostgreSQL, SQLite, MySQL, SQL Server
DevOps & Tools: Docker, Docker Compose, Git, GitHub Actions (CI), Linux, Postman, xUnit
